Kindness Inventors

**Purpose:** Invent something that would make the world kinder online.

Think about how technology makes the world faster, easier and safer. What if it could make the world more kind? Invent a new technology that would help people be kind online! Read about the Gallant Kids in the Be Internet Awesome magazine (pages 22–23) and see how kids just like you are already using technology for good!

My invention's name: _____

What my invention does:

_____

_____

_____

_____

Who my invention helps: _____

What my invention looks like:

Challenge: Share your invention with a classmate and explain why you chose to invent it. Can you work together to think of another invention that would help people be kind online?
