

Power Your Business with Android

As a busy small business, it's important to find ways to save time and boost productivity. Supercharge your ability to get work done on the go with Gemini¹, the AI assistant from Google, that comes built-in to your Android devices.

Read on to discover how Android offers a **powerful, secure, and flexible** mobile solution for your entire team.

Here's why choosing Android devices is a smart investment for your small business:

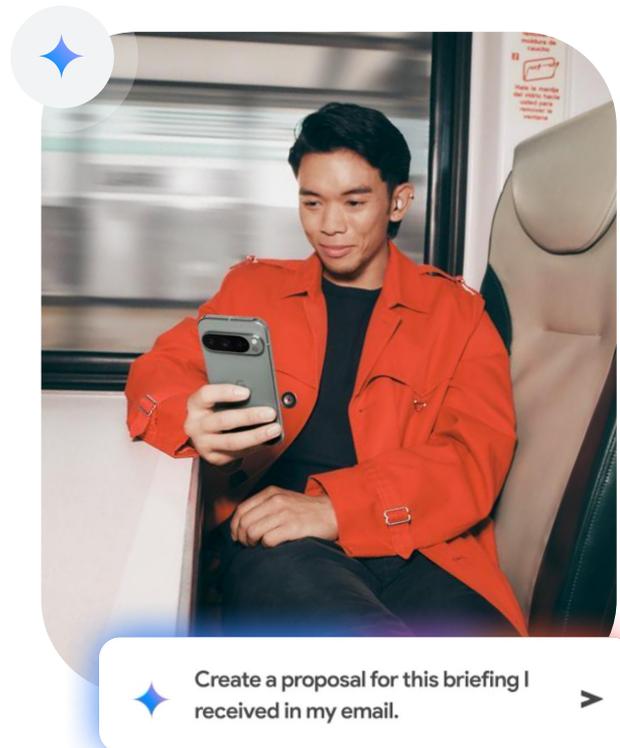

Productivity superpowers

Empower your teams, no matter where they are, with Android's AI productivity features including:

Gemini¹: Enhance team productivity with Gemini, putting AI to work so you can focus on what matters most.

- **Gemini connected apps²**: Connect multiple apps with a single prompt, pulling and sharing information to complete tasks efficiently.
- **Gemini Live³**: Get hands-free help when you need to brainstorm ideas, develop plans, and find different ways to get things done.
- **Gemini document upload⁴**: Upload documents to Gemini to summarize key points and get actionable insights in seconds.

Circle to Search⁵: Search your screen without switching apps. Circle, highlight, or tap any image, video or text to quickly get the info you need, then get right back to work.

³Results may vary. Check responses for accuracy. Compatible with certain features and accounts. Internet connection required. Available in select countries, languages, and to users 18+.

⁴Google One AI Premium Plan subscription and browser for set up required. Gemini Advanced is available for ages 18+. Availability may vary by device, country, and language. Results for illustrative purposes and may vary. Check responses for accuracy.

⁵Available on select devices and internet connection required. Works on compatible apps and surfaces. Results may vary depending on visual matches.

No harmful apps found

Powerful, always-on security

Android provides robust, built-in device and data protection:

- **Google Play Protect**⁶: Proactively scans apps and devices to spot malware, ransomware, and guard against phishing.
- **Private space**⁷: A separate space on Android devices to hide and lock sensitive apps.
- **Remote Lock**⁸: Quickly and easily secure devices in the event of loss or theft to help prevent sensitive data leaks.
- **Theft Detection Lock**⁹: Google AI detects snatch motion and locks the device automatically.

Key Android advantages

- **Flexibility & choice**: Unmatched range of devices to suit every worker and budget.
- **Longer device life**: Up to 7 years of OS updates with select devices.
- **Global partner network**: Gain access to trained and verified partners who can support your Android mobility journey.
- **Simple set up and switching**: Data transfer, including apps, contacts and even settings, is quick, simple, and can be done via cable or Wi-Fi.
