Investing in the Virginia economy, helping create economic growth and jobs

15+ years

in Virginia: Google has proudly called Virginia home for over 15 years with an office in Reston and data centers in Loudoun and Prince William Counties.
$4.5B

investment in Virginia: Since the Loudoun County, Virginia data center was built in 2018, and the new data center in Prince William County, Virginia was built in 2023, Google has invested more than $4.5 billion in the state.

467,000+

Virginia businesses: More than 467,000 Virginia businesses used Google's free tools to receive phone calls, bookings, reviews, requests for directions, or other direct connections to their customers.

$12.1B

of economic activity: In 2024, Google helped provide $12.1 billion of economic activity for tens of thousands of Virginia businesses, nonprofits, publishers, creators, and developers.

Wander Worthy, Smithfield, Virginia.

"Google Analytics is such a robust tool. It's the first thing in my bookmarks bar–I use it daily to monitor my website to see if I need to dig deeper into anything."

- Alexandrea Sumuel Groves, Founder & Owner

Products:
Google Analytics, Google Search Console, Google Workspace, Gemini

Improving the lives of Virginians by investing in their citizens and communities

350,000+ Google Career Certificate graduates in the U.S.
Google Career Certificates help people develop skills for new jobs in fields like cybersecurity, data analytics, project management, and more in just three to six months. After completing the program, graduates are able to connect with 150+ top employers. 70%+ of graduates report a positive career impact within six months. Google has also partnered with 10 Virginia educational institutions like Northern Virginia Community College and George Mason University to make Google Career Certificates available to students and to increase employment opportunities.

299,000+ Virginians trained: Grow with Google has partnered with over 250 organizations in the state to train more than 299,000 Virginians on digital skills, including organizations such as public libraries, chambers of commerce, community colleges, and more.

Google Project Management Certificate graduate
Senior Delivery Manager at CarMax
Richmond, VA

Helping Virginians when they need it most

$59M+ in philanthropic giving: Since 2006, Google and Googlers have given more than $59 million in philanthropic giving (cash grants, employee donations, and gift match) to organizations and nonprofits in Virginia.

$285M+ in Ad Grants and Google Workspace to 2,170 Virginia nonprofits: Since 2005, Google.org provided $281 million worth of donated search ads to Virginia nonprofits through the Google Ad Grants program and more than $4 million worth of Google Workspace licenses for Nonprofits.

28,000+ volunteer hours: Since 2010, through Google.org, Google employees volunteered more than 28,000 hours with nonprofits and schools.

Google.org pro bono support: As part of a Google.org Fellowship, a team of Google employees worked full-time for six months with Rewiring America to build and launch the Incentive Calculator that enables residents in Virginia to input a few household details and see the home electrification rebates and tax credits available to them, reducing emissions and empowering communities to adopt clean energy.

$30M+ of Ad Grants to nonprofits: In 2024 alone, Google.org provided more than $30 million worth of donated search ads to Virginia nonprofits through the Google Ad Grants program.

Partnering with local governments and academic institutions to help Virginians

Rapid Digital Response to Public Health Crises, Serving Millions: The Commonwealth of Virginia rapidly deployed statewide digital solutions for the COVID-19 pandemic, including launching the nation's first privacy-focused Bluetooth Low Energy exposure notification app (COVIDWISE) achieving over 300,000 early adopters, and the Vaccinate Virginia website which facilitated over 250,000 vaccine pre-registrations within 24 hours, ultimately serving millions, integrating data across the state, and modernizing both application and infrastructure, while also collaborating on a cross-state cloud data strategy.
