

## Tutorial 1.6: Export heatmap image and table results

Export the results of the enrichment analysis as an image and as a table containing the details of the statistic results

## Export heatmap to image ...

## Select destination file

Name tutorial-results Browse...

Folder /home/sderdak/Desktop/test Browse...

Form... PNG (png) v

Generated file /home/sderdak/Desktop/test/tutorial-results.png

## STEP 2

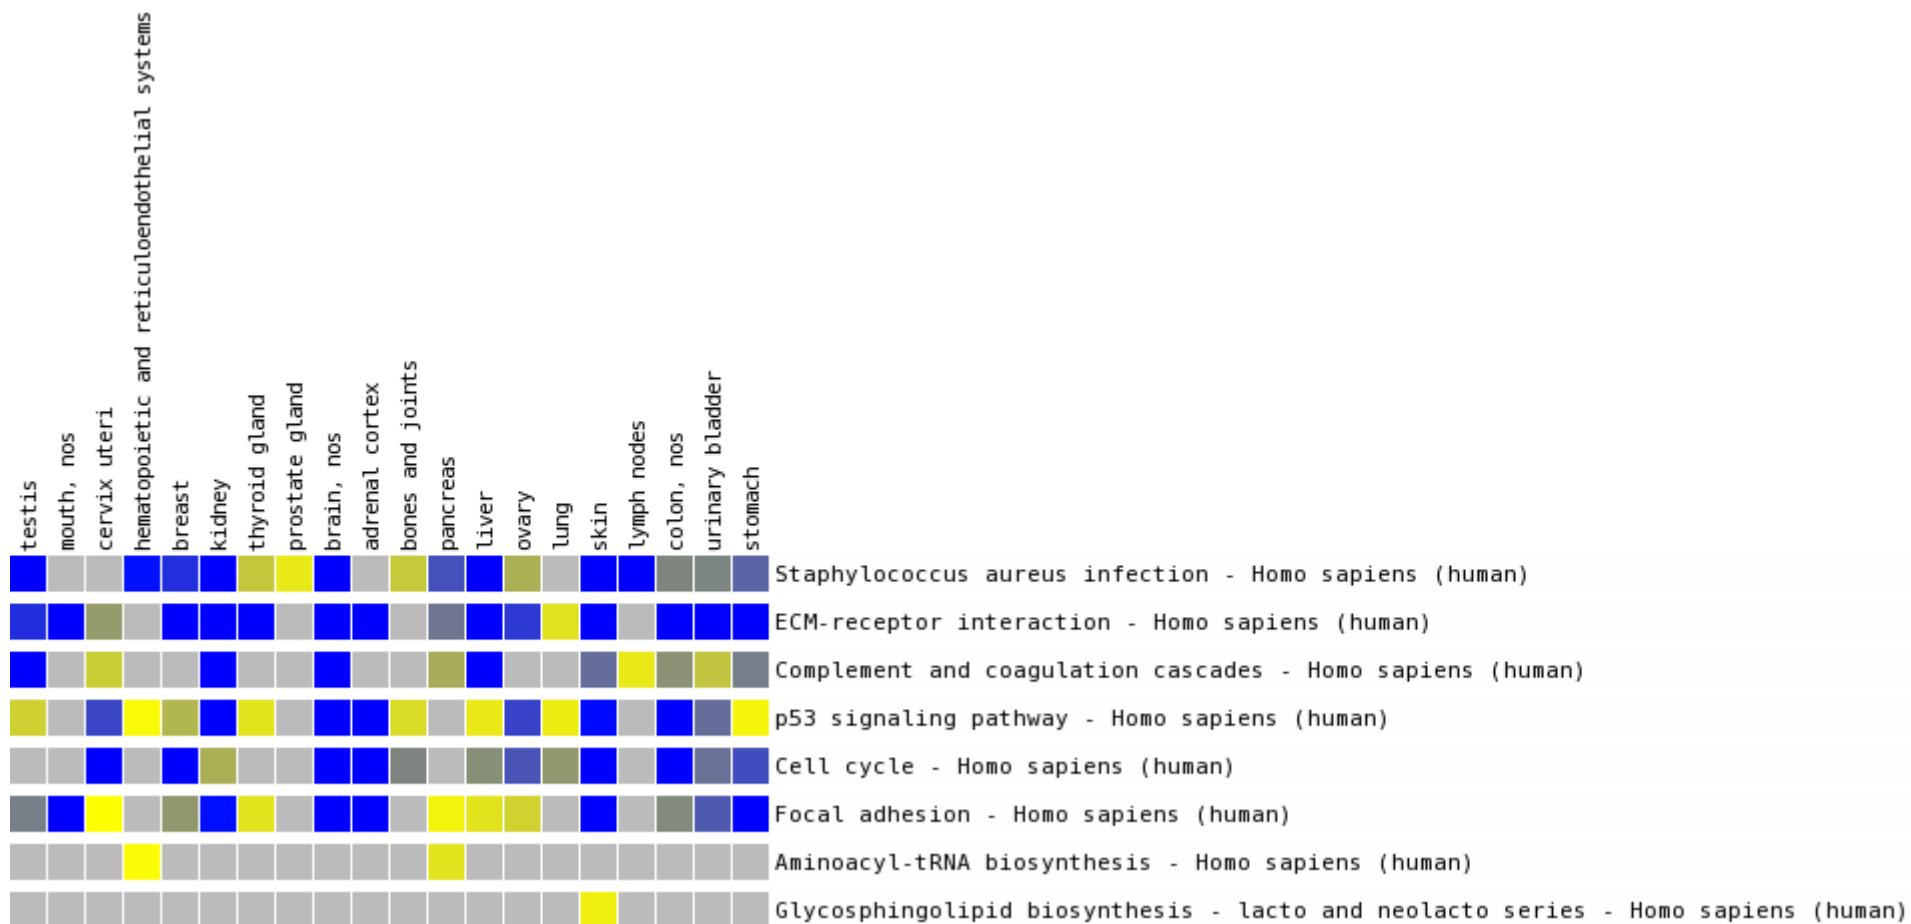

Give a name to the image, select the directory where to save it and the format

ion - Homo sapiens (hu  
omo sapiens (human)  
ascades - Homo sapiens  
sapiens (human)  
uman)  
s (human)

1.00

After the export you will have a new file with the image in the directory that you indicated.

Data Results

**STEP 4**

Click Export table ... to export a table with the parameters of the enrichment analysis results

### STEP 5

Remove or add parameters and put them in the order you want them to be in the table and click OK

home/sderdak/Desktop/test/table.txt

After the export you will have a new file that contains the table with the parameters that you selected.
